The Latitude & Longitude Game

The Goal: Using your world map, try to be the first to place a mark at four locations across.

How to Play:
Take turns doing the following...
► Spin the Latitude spinner to determine your latitude location.
► Flip the N/S token to determine your latitude hemisphere (North or South)
then...
► Spin the Longitude spinner to determine your longitude location.
► Flip the E/W token to determine your longitude hemisphere (East or West)
finally...
► Write your result on the recording sheet and mark a dot on your map at your location.

The winner is the first player that gets 4 in a row in ANY direction.

Watch out for 90 latitude you might get “frozen” at one of the poles!!!
